Cutting-edge communication tools

We're Jabra; a world-leading audio and video brand. Part of the GN Group, we're the only company in the world with consumer, professional and medical-grade sound expertise, all under one roof. We create intelligent headsets and communication tools, and pioneering video conferencing solutions, helping professionals everywhere to work more productively, and delivering better, more inclusive meetings wherever you're working from.

Our Heritage

As part of GN Group, Jabra has a 150-year history of leading the way, using our unrivaled understanding of high quality sound in all its forms to pioneer bold innovations that improve people's lives.

The brand of choice for hybrid-working professionals

“With the right leadership and technology, successful teamwork and collaboration don’t need to be bound to any specific place.”

Morten Lyngstrand Baagoe - VP Global HR at GN Audio

Hybrid working is a relatively new term for a truth that we at Jabra have known for years; that the work you do isn’t dependent on where you do it.

Hybrid working means having the flexibility (and supporting technology) to be able to do your job just as effectively from the home office, the airport lounge, or even the train, as you do from the traditional office. In fact, most knowledge workers now expect their work week to be divided between three locations¹.

There are many benefits to effective hybrid working, including improved work-life balance, greater flexibility, improved employee morale, and better productivity. But to get the most out of your hybrid workday, you need the right tools. 85% of businesses are currently looking to improve collaboration for their employees through better technology², but here at Jabra, we’ve been leading that charge for years.

Keeping you seamlessly connected to everyone on your team, no matter where you all are. Keeping distractions at bay and helping you find your own oasis of calm, whatever’s going on around you. Keeping you flexible, adaptable, and productive.

With our range of outstanding professional-grade devices, any place is a workspace. In the office, at home, on the go, or holed up in the local coffee shop – there’s no trade-off between convenience and professionalism.

We believe that with the right tools, you can work from anywhere. Because anywhere works.

To learn more about new ways of working in any environment, please visit our blog: jabra.com/blog

EVOLVE2 SERIES

The new standard

It's time for a better way of doing things; enter Evolve2. We've re-engineered our world-leading Evolve Series in every single way, allowing us to bring you significant performance enhancements across the board.

These are professional headsets, but not as you know them. Welcome to the new standard.

JABRA EVOLVE2 SERIES

It's not just new in every way.
It's the new standard.

Evolve2 is our most advanced range of headsets yet – designed to boost productivity and aid concentration and collaboration in the face of ever-increasing challenges. Featuring better noise cancellation than ever, world-leading call performance, industry-leading battery life* and significantly enhanced comfort, these headsets are the productivity tools you need to help you concentrate and collaborate in the office, wherever that office might be.

Solutions for education

With hybrid learning now being the preferred method for nearly half of all students, flexible technology is key. Reinvent the classroom, with technology that enables a mix of in-person, online, and on-demand learning, seamlessly.

Solutions for healthcare

With remote healthcare becoming more widely available, the right devices help to ensure the provision of these vital services is of a consistently high standard. Jabra keeps healthcare workers connected.

Solutions for government

Governments around the world have a unique need to build and maintain trust with their constituents. Our range of world-leading enterprise-grade technology helps to ensure that every communication between government and citizens is secure, reliable, and uninterrupted.

JABRA FOR TEACHERS

Class is in session. Wherever you are.

- › The PanaCast Series gives teachers the flexibility to teach just like they usually would
- › PanaCast 50 features the hallmark 180° field-of-view and premium 2-way audio, for an outstanding all-in-one experience
- › PanaCast 20 opens up a new world of portable, hybrid teaching, with AI-enhanced lighting optimization and Intelligent Zoom for the perfect picture every time
- › Teachers can pick up their PanaCast 20, along with their Speak 750 speakerphone or their Evolve2 30 headset, and take their tech with them to the next classroom – or home

JABRA FOR STUDENTS

Location is no barrier to learning

- › The Biz 1100 EDU headset delivers professional-grade audio, with noise-cancellation, hearing protection and easy connectivity to help students find their focus
- › The Evolve 30 and Evolve2 30 headsets give students the flexibility to learn anywhere, easily eliminating background noise and allowing them to concentrate
- › PanaCast 20 delivers premium AI-powered 4K Ultra-HD video quality to make the digital classroom experience the best it can possibly be

SOLUTIONS FOR HEALTHCARE

Every touchpoint fully covered

- › Our range of outstanding professional-grade collaboration and communication tools integrate seamlessly into the healthcare ecosystem
- › PanaCast 20 creates an immersive video experience, with Intelligent Lighting Optimization and Intelligent Zoom, while a unique Picture-in-Picture mode helps doctors go in-depth with their diagnosis
- › Paired with the Evolve2 headsets, and the 2-way premium audio of our Jabra Speak 750 speakerphone, practitioners can enjoy crystal-clear communication
- › The Jabra Engage Series with advanced digital chipsets delivers superior audio and outstanding call performance, as well as call analytic data enabling ongoing service analysis

SOLUTIONS FOR GOVERNMENT

Invest in future-proof tech

- › As communication between government employees and their citizens becomes increasingly virtual, the right tools are vital in nurturing and building trust
- › Maximum data security for maximum compliance. Jabra Engage Series wireless headsets go beyond the DECT level C security standard with 256-bit AES encryption security
- › World-leading enterprise-grade technology of Jabra headsets and cameras ensures that every communication between government and citizens is secure, reliable, and uninterrupted
- › Jabra headsets are built to work with all major UC platforms

RECOMMENDED PRODUCTS

Our wide portfolio extends beyond the consultation room, covering every possible communication need. From doctors seeing patients, to lecturers in universities, and the customer service agents handling calls and bookings.

Accessories & Software

Get the most of your Jabra devices. Jabra Xpress and Direct software let you manage all your headsets and video devices, wherever they are in the world. Continuous firmware upgrades keep everyone's tech running at peak performance, for the best user experience.

JABRA AUDIO PROCESSORS AND SWITCHES

Amplify your audio

Turns the traditional desk phone headset (QD) into a digital headset with all the advantages of improved call management and the ability to use a QD or a USB headset on both the desk phone and a UC softphone.

JABRA LINK 950

Enables you to use a USB headset to connect to your desk phone, softphone and mobile phone¹.

- › Ideal for organizations in the process of transitioning to softphones
- › Use one USB headset with your desk phone or both softphone and desk phone
- › Choose a headset with productivity-boosting features such as ANC, busylight and microphone positioning guidance
- › Compatible with leading desk phones and softphones

JABRA LINK 860

Turns the traditional desk phone headset (QD) into a digital headset with improved call management.

- › Works with QD headsets on both desk phones and a UC softphone
- › Supervisor port for easy assistance and training purposes
- › Easy connectivity and power through USB
- › Easily switch between desk phone and softphone calls

JABRA LINK 180

Switch between desk and softphone on a single headset.

- › Enables use of Jabra QD headsets with PC-based softphones
- › Ideal for transitioning from desk phone telephony to softphone
- › Manual switch for simple, hassle-free operation

LINK 950

LINK 860

LINK 180

JABRA USB ENABLERS

Simply seamless

Preserve your QD headset investment as you move to UC. USB enablers allow you to connect a traditional desk phone headset to a UC softphone with all the benefits of acoustic shock protection and Noise at Work compliance. USB wireless adapters enable you to connect your Bluetooth headset to your softphone for wireless connectivity.

JABRA LINK 265

Join the conversation or stay muted when training agents.

- › USB Y-training cable connects to any two Jabra QD headsets
- › Supervisor function allows supervisor to stay muted or join the conversation
- › Inline call controls; answer/end calls, adjust volume and mute the microphone

JABRA LINK 260

Connect your corded QD headset to a softphone and get call control.

- › Provides Digital Signal Processing (DSP) and noise filtering for a superior audio experience
- › Compatible with any Jabra QD headset and all leading softphone brands
- › Answer/end calls, put calls on hold, adjust volume and mute at the touch of a button

JABRA LINK 230

Connect your corded QD headset to a softphone.

- › Enables any Jabra QD headset to be used with a PC-based softphone
- › Provides Digital Signal Processing (DSP) and noise filtering for a superior audio experience
- › Offers cost-effective transition to a UC solution

JABRA LINK 370/380¹

Plug-and-play Bluetooth mini USB adapter for PC.

- › Offers HD voice, HiFi Audio and A2DP for crystal-clear sound
- › Superior wireless range up to 100ft/30m for optimal mobility
- › Easy to manage and update with Jabra Direct

JABRA REMOTE CALL CONTROL SOLUTIONS¹

Leave the desk behind

Using a wireless headset together with a desk-phone becomes much more productive when you can answer and end calls away from the desk. Jabra Remote Call Control solutions enable volume to be adjusted during the call directly on the headset up to 150m/490ft away from the desk phone. Jabra offers a wide range of plug-and-play solutions to support a variety of different desk phones. Here are some examples:

JABRA LINK 14201-30

Electronic hook switch solution for USB desk phones.

- › Enables remote Electronic Hook Switch Control (EHS) with Jabra wireless headsets and a wide range of USB desk phones
- › Call control from your wireless headset up to 130m/450ft from your desk
- › Answer or end calls, adjust the volume and mute your call from the headset

JABRA LINK 14201-35

Electronic Hook Switch Solution for Avaya phones.

JABRA LINK 14201-17

Electronic Hook Switch adapter for Polycom SoundPoint IP phones.

JABRA GN 1000

True wireless headset freedom for use with most desk phones.

- › A mechanical handset lifter enabling remote call control with virtually any desk phone lacking EHS functionality

For the best remote call control solution for your phone, visit jabra.com/compatibilityguide

JABRA CORDS AND ACCESSORIES

Familiar functionality

Jabra offers a wide range of cords for your QD headset to complete your solution. We also provide a range of accessories and replacement parts to enhance your workspace. Examples include:

JABRA GN 1200 SERIES

Connect your desk phone to any Jabra QD headset.

- › Works with most desk phones
- › Microphone amplification to boost transmit levels
- › Simple slide adjustment for easy setup

JABRA HEADSET HANGER

Headset hanger that lets you hang the headset on your PC-monitor.

JABRA SOFTWARE

Complete control. Complete solutions.

Install and connect your Jabra sound devices.

Jabra Direct

A feature-rich integrated software solution for your headsets. Manage firmware and software updates to:

- › Facilitate headset adoption
- › Reduce the time spent on headset deployment
- › Optimize the conversation experience for customers
- › Improve your Jabra device with firmware updates

All-in-one, user-friendly interface.

Download it free today at jabra.com/direct

Jabra Sound+

Engineered to personalize your sound

The Jabra Sound+ app provides you with sound that's perfectly suited to your surroundings, wherever you are.

- › Personalized sound to suit your surroundings
- › Customize the way Sound+ delivers your sound
- › Choose your preferred voice assistant. Select between Amazon Alexa, Siri®, Google Assistant™ and more

To learn more, go to jabra.com/sound

Jabra Xpress

Jabra Xpress is a software solution designed for IT professionals to remotely manage Jabra USB devices with a set of smart tools. Jabra Xpress ensures:

- › Easy mass deployment
- › Smart asset management
- › Agile maintenance

To accelerate UC adoption and maximize Jabra headset ROI, download Jabra Xpress today at jabra.com/xpress

Jabra Software Development Kit (SDK)

The Jabra SDKs enable you to integrate and deploy Jabra devices as value-adding digital components in your software system solutions. Take advantage of features such as remote call-control, audio optimization, workflow support, and real-time call-profiling data to deliver a best-in-class user experience to your customers.

To learn more, go to developer.jabra.com

JABRA TECHNOLOGY

Quality as standard

Standard features that take your communication to the next level.

Comfort

Most Jabra headsets have a choice of up to three different wearing styles for the most comfortable and customizable fit.

DECT vs. Bluetooth® Technology

DECT – best possible range and density performance. Bluetooth – When mobility with one solution, in and outside of the office, is a key need.

Digital Signal Processing (DSP)

DSP technology optimizes sound performance by filtering out distracting background noise, reducing call-handling times and potential misunderstandings.

HD Voice – Wideband Audio

Enjoy life-like, vibrant conversations that let you focus on the content of the call instead of struggling to hear the person on the other end of the line.

High Durability

Every headset is subject to extensive testing; everything from cable-flexing to boom-arm rotations to acoustic tests. Durability reduces the risk of accidental breakage and replacement costs.

Mono or Stereo speaker

For many of our headsets, you can choose between mono (one) and stereo (two) speakers, depending on your work environment or your personal preference.

Noise Blackout™

Jabra Noise Blackout technology eliminates disturbing background noise such as wind, surrounding conversations or traffic, to enhance your voice.

Optimized for Microsoft

The vast majority of Jabra products come in standard variants or variants that have been optimized for Microsoft.

PeakStop™

PeakStop technology, included with all Jabra headsets, immediately removes potentially harmful loud sounds or tones before they reach your ears and keeps the sound level within a safe range to protect your hearing.

Remote Call Control (RCC)

RCC gives you call control with your wireless headset from your desk phone, using either an Electronic Hook Switch (EHS) cable or a mechanical handset lifter (Jabra GN1000).

SafeTone™

SafeTone technology, included with selected Jabra headsets, protects your hearing by cutting off sudden loud noises and maintaining a safe average sound level throughout the day – meeting EU noise-at-work compliance and NA recommendations – jabra.com/hearingprotection

Secure Wireless Calls

All wireless office headsets digitally encrypt the signal between the headset and the base. That's guaranteed confidentiality and peace of mind when you need privacy.

UC plug-and-play

Seamless connection to all leading UC applications and softphones. Easy to set up and easy to use.

Wind Noise Protection

Keep the thread of your conversation in open-air environments without any interference. Walk, bike, run and work outside with no need to raise your voice or shout to be heard.

HEADSET	BLUETOOTH	DECT
Connection (in the office)	Deskphone Softphone Mobile phone	Deskphone Softphone Mobile phone
Connection (outside the office)	Softphone Mobile phone	Not possible

Unified Communications and Collaboration (UC&C)

Our integrated audio and video solutions are designed to connect across and between UC&C platforms to reduce distractions, complexity and distance in the modern workspace, helping you to feel the full benefit of your UC&C investment.

At Jabra, we understand how work happens in the modern workplace, and we care about keeping people connected. That's why we engineer UC&C tools that adapt to the way people work, not the other way around.

Our solutions seamlessly integrate with all leading platforms, fit any workspace, and deliver exceptional user experiences, helping you to drive user adoption and build a high-performing workspace.

What we can do for you

UC&C is undergoing something of a technological evolution at the moment. With this growth comes intense pressure on IT managers to make the correct decisions when it comes to selecting the right equipment for their workforce. With the way we communicate changing all the time, it's important that they choose solutions which are built with tomorrow in mind. That's why we offer:

Solutions that fit in with the way you work

We complete your UC&C experience with integrated audio and video solutions, optimized for your business and connected to the digital platforms you already use.

Great experiences that help drive user adoption

Outfitting your business with UC-certified solutions unlocks the full potential of your digital platforms and provides your teams with user experiences they'll love.

Fast ROI and improved IT workflows

Our plug-and-play devices are easy to deploy, connecting straight out of the box with your platform of choice. This means your employees can get to work quickly with products IT admins **trust**.

Better together

Strategic alliances

To provide seamless communication and collaboration experiences, we design, develop and end-to-end test our audio and video solutions in close co-operation with the market's leading UC&C providers and engineering teams. Jabra works with leading alliance partners to optimize the quality and interoperability of our products.

Working closely together on product integrations allows us to bring to market connected solutions that enable a seamless collaboration experience with your platform of choice, right out of the box.

A man with dark hair and a beard, wearing a blue button-down shirt and a black headset with a microphone, is sitting on a light-colored couch. He is smiling and looking down at a silver laptop on his lap. A black, curly-haired dog is sitting on the couch next to him. In the background, there is a framed picture on the wall and a blurred figure of another person.
